

Tic, Tac, Toe, Watch them grow- First Year Package

Maija Photography

The first year of a baby's life brings so much growth and change that you will want to always remember and treasure. One of the best ways you can keep those memories forever is through the Tic, Tac, Toe, Watch them grow program. Maija has a true understanding of babies and she understands that baby portraits are more than just taking a picture. They are creating an environment where the baby feels relaxed and comfortable. Because of this, Maija Photography brings the studio to your house or location of your choosing. She feels that this will help truly capture who your baby is and the sweet innocence they create. Taking baby portraits is both a science and an art, gained only from experience. Being a mother herself, and having years of experience taking baby portraits, Maija creates images that will be both a lasting keepsake and capture the essence of your child in an aesthetic and pleasing way.

This plan offers 4 sessions, typically at 3, 6, 9, and 12 months, (newborn can be used as one of the four). You will receive a 20 page, 11.25 x 8.75, Coffee Table Story Book (valued at \$150.00) after your baby's one year session, documenting each age. With this plan you will receive 15% off all regularly priced portraits or packages.

\$250.00
